**transparent learning path**  
*modern media* *good learning environment*  
*learning success* **successful learning** *modern media*  
*intensive advising and placement*  
*transparent learning path* **successful integration**

The ISK is a Licensed Test Centre for

### Mission Statement

The ISK has been working for quality in education, tolerance and respect in the way we deal with one another and for an open-minded Germany since 1997! We are open to anyone who would like to learn with us, but we focus in particular on people who move between two cultures for humanitarian, private or professional reasons. Our clients and customers come from all over the world. We work for public and private institutions, public authorities, companies and private persons.

### Learner-Oriented Quality Certification

We see our clients as the main focus of all our quality processes. We are certified according to LQW 3, the Learner-oriented Quality Certification in Continuing Education and Training, a member of the German as a Foreign Language Association (FaDaF), a certified BAMF support agency and certified according to AZAV for Continuing Education/Job Qualification.

### Learning at the ISK

More than 1,500 participants learn German and other languages at the ISK each year. At our very central locations directly in downtown Hannover, we have developed a room concept that creates a good atmosphere for learning, provides the prerequisites for the use of modern media and caters to the needs of adult learners. We have more than 35 modernly equipped seminar rooms with e-projectors and interactive whiteboards, a schoolyard and lounge areas. Free wifi is available at all locations. Our instructors have extensive experience in adult education and exhibit a high degree of competence in their subject areas and in their social skills. Our employees are the key to your learning success!

### The Learning Process

The starting point for successful learning at the ISK is a counseling session and a diagnosis of learning needs. In a personal meeting, the objectives, needs and desires are discussed with our clients, language skills are tested and a transparent learning path with an agreement on the objectives to be reached is determined. Mid-term tests, final examinations and learning diagnoses document the learning progress of our clients, thus giving them the opportunity to review and help shape their own learning process.

## Course Offers

All our courses focus specifically on language and communication. The courses on offer range from the standard programme for German, integration courses, literacy courses, preparatory German courses and measures for vocational training up to company training courses.

## Licensed Test Centre

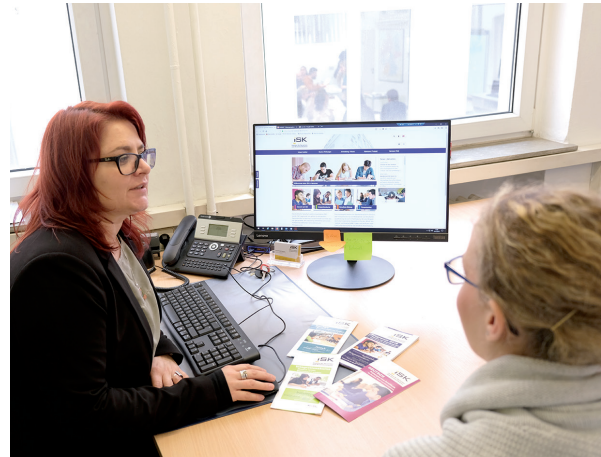

Whether for naturalization, education, studies or the work place, the ISK offers internationally recognized examinations at all levels from A1-C1 on the basis of the "Common European Framework of Reference for Languages".

We advise our clients on which course, which exam and which language certificate is the right one for them so that they can reach their own personal goals.

## Educational Objectives

In our German courses, we prepare our participants to take internationally recognized examinations for their jobs or job training (apprenticeships). The goal of the integration and literacy courses is the integration of migrants in Germany in terms of language, social customs and culture. The courses for job qualification focus on the integration of our clients in the job-training and job market. For our private and corporate clients, we develop individually customized language training courses to enable them to reach the goals they have set quickly, effectively and successfully.

## Learning Success

The learning success of our clients is our business card. For us, successful learning means that we, as an educational institution, create the optimum conditions for participants and instructors to achieve the goals agreed upon together in a positive learning atmosphere.

### ISK Office

Lützowstraße 7
